## Notice of Health Information Practices

You are receiving this notice because your healthcare provider participates in a non-profit, non-governmental health information exchange (HIE) called Health Current, a Contexture company. It will not cost you anything and can help your doctor, healthcare providers, and health plans better coordinate your care by securely sharing your health information. This Notice explains how the HIE works and will help you understand your rights regarding the HIE under state and federal law.

### How does Health Current help you to get better care?

In a paper-based record system, your health information is mailed or faxed to your doctor, but sometimes these records are lost or don't arrive in time for your appointment. If you allow your health information to be shared through the HIE, your doctors are able to access it electronically in a secure and timely manner.

**What health information is available through Health Current?** The following types of health information may be available:

- Hospital records
- Medical history
- Medications
- Allergies
- Lab test results
- Radiology reports
- Clinic and doctor visit information
- Health plan enrollment and eligibility
- Other information helpful for your treatment

**Who can view your health information through Health Current and when can it be shared?** People involved in your care will have access to your health information. This may include your doctors, nurses, other healthcare providers, health plan and any organization or person who is working on behalf of your healthcare providers and health plan. They may access your information for treatment, care coordination, care or case management, transition of care planning, payment for your treatment, conducting quality assessment and improvement activities, developing clinical guidelines and protocols, conducting patient safety activities, and population health services. Medical examiners, public health authorities, organ procurement organizations, and others may also access health information for certain approved purposes, such as conducting death investigations, public health investigations and organ, eye or tissue donation and transplantation, as permitted by applicable law.

Health Current may also use your health information as required by law and as necessary to perform services for healthcare providers, health plans and others participating with Health Current.

The Health Current Board of Directors can expand the reasons why healthcare providers and others may access your health information in the future as long as the access is permitted by law. That information is on the Health Current website at [healthcurrent.org/permitted-use](http://healthcurrent.org/permitted-use).

You also may permit others to access your health information by signing an authorization form. They may only access the health information described in the authorization form for the purposes stated on that form.

### Does Health Current receive behavioral health information and if so, who can access it?

Health Current does receive behavioral health information, including substance abuse treatment records. Federal law gives special confidentiality protection to substance abuse treatment records from some substance abuse treatment programs. Health Current keeps these protected substance abuse treatment records separate from the rest of your health information. Health Current will only share these protected substance abuse treatment records it receives from

these programs in two cases. One, medical personnel may access this information in a medical emergency. Two, you may sign a consent form giving your healthcare provider or others access to this information.

### **How is your health information protected?**

Federal and state laws, such as HIPAA, protect the confidentiality of your health information. Your information is shared using secure transmission. Health Current has security measures in place to prevent someone who is not authorized from having access. Each person has a username and password, and the system records all access to your information.

### **Your Rights Regarding Secure Electronic Information Sharing** You have the right to:

1. Ask for a copy of your health information that is available through Health Current. To make this request, complete the Health Information Request Form and return it to your healthcare provider.
2. Request to have any information in the HIE corrected. If any information in the HIE is incorrect, you can ask your healthcare provider to correct the information.
3. Ask for a list of people who have viewed your information through Health Current. To make this request, complete the Health Information Request Form and return it to your healthcare provider. Please let your healthcare provider know if you think someone has viewed your information who should not have.

### **You have the right under article 27, section 2 of the Arizona Constitution and Arizona Revised Statutes title 36, section 3802 to keep your health information from being shared electronically through Health Current:**

## **NACA FAMILY HEALTH CENTER AFTER HOURS CARE and REFERRAL POLICIES**

### **After Hours Care Policy**

- In case of a life-threatening emergency, please go directly to the Flagstaff Medical Center emergency room. Please refer to your individual insurance or AHCCCS plan guide for information on coverage of emergency room visits.
- For care that is less urgent, but that you feel needs evaluation while we are closed, you may go to local urgent care centers, or the Tuba City or Winslow Indian Health Center if you are Native American.
- NACA is not responsible for any bills you may have for after-hours care with other doctors, clinics, or hospitals.

### **Referral/ Contract Health Policy**

- At times referrals are made for services not available at the clinic. These services may be consultation with a specialist, hospitalization, X-rays or tests, dental care, or eye care, etc.
- The NACA physician will contact your insurance company or your IHS Contract Health Services Office to inform them of the referral. This does not automatically mean that the referral has been approved by your private insurance or Contract Health Services.
- It is your responsibility to contact your insurance company or your IHS Contract Health Office to verify that the referral has been pre-authorized BEFORE your appointment. Only life-threatening emergencies do not need pre-authorization. Otherwise, you might be held responsible for the cost of the referral.
- To benefit from IHS Contract Health Services, it is important that you maintain a file at your IHS Indian Hospital. You will need a tribal census number and to update your information at least every five years. This can usually be done over the telephone. To qualify for coverage, you must notify your IHS Contract Health Office within 72 hours of an emergency room visit or hospital admission. There is no guarantee that they will pay for services.

**NACA staff will assist you in obtaining any needed phone numbers and in clarifying any of the above. Thank you for your cooperation.**
